COMPANY LIMITED**

THE ENGINEERS YOU CAN TRUST - SINCE 1948

THE ENGINEERS YOU CAN TRUST SINCE 1948

MISSION

"Innovation in the Field of Engineering"

We take total advantage of the latest technology to ensure that products we deliver are beyond customers expectation

VISION

"We Aim for the Top"

Our aim is to deliver an exceptional performance and service to our client expectations

OUR VALUES

"Quality Comes First"

We are committed to the quality and the pride that comes consistently producing the very finest product

OUR SPECIALIZATION

Foundry Services

Mechanical Engineering Services

Fabrication Services

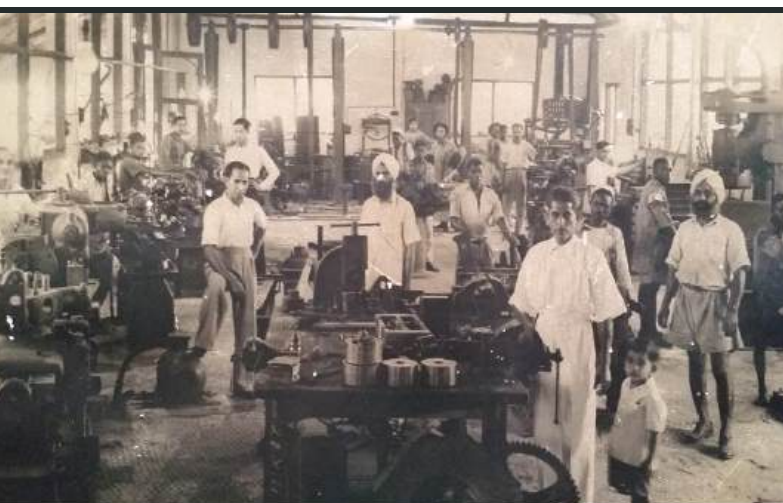

Automobile Services

Hard Chrome Services

Reco Engineering Company Ltd. are providing engineering services to various companies and workshop of Tanzania since 1948. Our aim is to deliver the exceptional performance and service that our clients expect. We achieve this through the strength of our investment process and the quality of our people. It has grown from a five-man operation to a fully-equipped machine shop with 50+ employees. Our staff have experience, ranging from 20 to 30 years in the engineering field.

Our machinists, supervisors, engineers and managers are dedicated, highly trained and our precision equipment is top of the line.

THE ENGINEERS YOU CAN TRUST SINCE 1948

AUTOMOBILE

Our automobile division uses sophisticated machinery to produce absolute precision and achieving high quality automobile parts. These machines match the international quality standards and thus help us in garnering a huge client base all over Tanzania & across. We hereby only show you few such high-end machinery that we use to perform our services in this division: We take total advantage of the latest technology to ensure the products we bring to the customers to meet or exceed expectations...the first time!

We are committed to the quality and pride that comes from consistently producing the very finest product. We offer individual attention to our customers specific needs. We are proud of our reputation for excellent service, flexibility, dedication, and professionalism.

We've spent years building up a friendly, helpful and efficient team of specialists that will do whatever it takes to fulfill our customer's requirements.

THE ENGINEERS YOU CAN TRUST SINCE 1948

FABRICATION

Reco Engineering Co Ltd is your trusted partner in custom metal fabrication since 1948. We are an experienced company offering unparalleled quality and expertise with our vision being an industry leader using the latest technology and an array of manufacturing services that offer a solution for any metal fabrication project. The quality of our customers' product is our primary focus from start to finish of each project. Engineering consultation is provided to assure a projects' manufacturability throughout the development process.

When working with **Reco Engineering Co Ltd**, you will receive a top quality product at competitive pricing.

HIGHLIGHTS

**Well Trained
Technicians**

**Highly
Proficient**

HARD CHROME

Reco Engineering Co Ltd, based in Dar Es Salaam, Tanzania is specialized in Electroplating Hard Chrome. The hard chrome plating process enhances the mechanical and physical properties of all components including rods, internal tube diameters, rolls and pins. Our Hard Chroming Team has 10 years experience in this field and have done many projects of various industrial sectors like Civil Aviation, Marine Industry, Steel Mills, Textile Factories, Food Industries etc.

Reco Engineering Company Limited, provides industrial chrome plating for Original Equipment Manufacturers (OEMs) and for repair of cylinder components.

FEATURES OF HARD CHROME PLATING

- Prevent oxidation
- Low friction
- Abrasion resistant
- Paramagnetic Properties
- Corrosion resistant
- Surface hardness

OUR SERVICES

- Welding
- Repairing
- Precision Works
- Hand Molding
- Chrome
- Hard Chrome Plating
- Grinding
- Fine Polishing

HIGHLIGHTS

Increases surface hardness

Optimises protection

Increase metal endurance

Improve the load capacity

Provides high quality adhesion properties

FOUNDRY

Our foundry division follows international delivery standards to meet customer expectations. The foundry department consists of experts having more than 20 years of experience. The division is able to produce Grey Iron, Ductile Iron, Carbon steel, Stainless steel, Duplex stainless steel and other Super alloy steels to International specifications.

QUALITY CONTROL

- Hardness testing
- Complete sand lab testing unit
- Spectro machine for Chemical composition with (metal power) more than 26 elements
- Automatic heat treatment chart recorder
- Surface table for dimension checking
- Mold and core hardness tester
- Ultrasonic Flow Detector

HIGHLIGHTS

Spread across an 800 SQ.M area

Capacity up to 1800 Tons of casting per annum

Weight maximum up to 1350 KGS with single-piece casting

In-house CNC pattern development

In-house Fettling process

In-house Quality Testing facilities
